

@ncilla partners, inc.

Position - Web/Software Developer Intern

Who we are:

Ancilla Partners is a web development firm with a focus on applications and software solutions for the healthcare industry. Our clients are some of the healthcare quality improvement leaders in the country. The data tools and web sites that we build allow them to accomplish their goals.

To learn more, visit our website at www.ancillapartners.com.

Who we're looking for:

The ideal candidate must have solid technical skills in developing robust data-driven applications using Web development tools, object-oriented programming languages and techniques, database design and optimization tools and leading operating system and network platforms.

We're looking for an intern that is self-motivated, driven to learn, and able to work well as an individual and as part of a dynamic team. This person will also be passionate about doing great work for our clients. This internship will not only provide important work and learning experiences, but also a chance based on performance for an opportunity to grow into a permanent employee at Ancilla.

Key Technical Skills:

- Database experience (especially MySQL and SQL)
- Web based application experience
- JavaScript, AJAX, JQUERY
- HTML, DHTML, CSS
- *Preferred, but not required:* Knowledge of Ruby on Rails, PHP and .NET.

If you have:

- Academic experience and knowledge in web-based applications
- A strong desire to learn

Apply today! Please send a resume and brief description of why you're interested in this opportunity to jobs@ancillapartners.com. We'd love to hear from you!
